# Economic Census Snapshot
Minnesota

The Economic Census provides detailed data on Sales and other measures of business output for nearly every sector of the U.S. economy at the national, state, and local area levels by 2-thru 6-digit NAICS code. Detailed product lines data are also available at the national and state levels.

Value of Sales, Shipments, Receipts, Revenue, or Business Done in Selected Sectors: 2012 ($ Billion)

- Wholesale trade: $167.4
- Manufacturing: $123.1
- Retail trade: $78.9
- Health care and social assistance: $40.4
- Construction: $32.9

(Note: excludes the Utilities, Information, and Finance and Insurance sectors where state-level revenue data are not published. Source: 2012 Economic Census)

Detailed data on Employment and Annual Payroll are also available. For the Manufacturing sector, these data are broken out for production workers and other staff. Data on production worker hours are also provided.

Number of Employees in Top 5 Sectors: 2012

- Administrative and support and waste management and remediation services, 162,828
- Accommodation and food services, 221,859
- Retail trade, 288,888
